Mailed:

In re Application of:

Rehman et al.

Serial Number: 10/807,025

Filed: March 22, 2004

For: Pigmented Ink-Jet Inks with Improved Print Quality And Reliability

This is a decision on the petition filed 2/10/05 to correct inventorship under 37 CFR 1.48(a). It is noted that applicants have met the requirements of (i) a request to correct the inventorship that sets forth the desired inventorship change, (ii) a statement from each person being added as an inventor that the error occurred without deceptive intention on his or her part, (iii) the fee set forth in 37 CFR 1.17(i) and (iv) the written consent of the existing assignee.

However, it is noted that applicants have not met the requirement of an oath or declaration by each actual inventor or inventors as required by 37 CFR 1.63. While each inventor need not execute the same oath or declaration, each oath or declaration executed by an inventor must contain a complete listing of all inventors so as to clearly indicate what each inventor believes to be the appropriate inventive entity. Further, where individual declarations are executed, they must be submitted as individual declarations rather than combined into one declaration. In the petition filed 2/10/05, while individual declarations were executed, they were combined into one declaration. An individual declaration was not submitted by inventor Patricia A Wang. Further, the oath or declaration executed by inventor Patricia A Wang does not contain a complete listing of all inventors. Specifically, inventor Zia Rehman is not included in the listing of inventors in the oath or declaration executed by Inventor Wang.

The petition is **DISMISSED**.
